

## ✎ Module 7 - Assignment

### Problem Statement:

- Create a cron job that will run once a month, on the second data of the month
- Create a cron job that will run thrice in an hour and this should repeat every hour

#### 1. Cron Job Running Once a Month on the Second Day

```
0 0 2 * * /path/to/script.sh
```

Online cron tester "Cronitor" check:

*"At 00:00 on day-of-month 2."*  
next at 2023-09-02 00:00:00  
0 0 2 \* \*

#### 2. Cron Job Running Thrice an Hour, Every Hour

*(I'll pick minutes 0, 20, and 40)*

```
0,20,40 * * * * /path/to/script.sh
```

Online cron tester "Cronitor" check:

*"At minute 0, 20, and 40."*  
next at 2023-08-20 03:20:00  
0,20,40 \* \* \* \*
